NEW COURSES

HLT33115 -

Certificate III in Health Services Assistance

This qualification reflects the role of a variety of workers who use a range of factual, technical and procedural knowledge to provide assistance to health professional staff for the care of clients. Health services assistance involves the worker in direct client contact under supervision.

FOR DETAILS:

Throughout the course, students will develop expertise in:

- Patient Support – Assisting with daily care and comfort.
- Workplace Health & Safety – Ensuring a safe healthcare environment.
- Medical Terminology – Understanding key healthcare language.
- Infection Control – Learning best practices to prevent disease transmission.
- Communication Skills – Effectively interacting with patients and healthcare teams.

The program includes practical training to provide hands-on experience, ensuring graduates are job-ready. Upon completion, students can pursue roles such as nursing assistants, patient care attendants, and ward support staff.

Mode of Delivery:

- Option 1: Online Onshore
- Option 2: Online Offshore
- Option 3: Face to face for international students
- Option 4: Blended learning for remote and rural communities

Course duration:

- Option 1: 6 months
- Option 2: 1 yr
- Option 3 : 9 months
- Option 4: 6 months

All options require a clinical placement.

HLTAID011 -

Provide First Aid

This unit describes the skills and knowledge required to provide a first aid response to a casualty in line with first aid guidelines determined by the Australian Resuscitation Council (ARC) and other Australian national peak clinical bodies.

The unit applies to all persons who may be required to provide a first aid response in a range of situations, including community and workplace settings.

FOR DETAILS:

Mode of delivery : Face to face

Course duration: 1 day

Renewal recommendation: every 3 years

Available for corporates, groups, or individuals

Open to all members in the community in clinical or non clinical roles

NEW COURSES

HLTAID009

Provide cardiopulmonary resuscitation

This unit describes the skills and knowledge required to perform cardiopulmonary resuscitation (CPR) in line with the Australian Resuscitation Council (ARC) guidelines.

This unit applies to all persons who may be required to provide CPR, in a range of situations, including community and workplace settings.

FOR DETAILS

Mode of Delivery: Face to face
Course Duration: 4 hours
Renewal recommendation:
Yearly

Available for corporates, groups,
individuals
Open to all members in the community in
clinical or non clinical roles

HLTHPS007- Administer and monitor medications

This unit describes the skills and knowledge required to administer medications to people and monitor them, as per the delegation from a relevant health professional, in accordance with legislation and the employing organisation's medication and delegation policies and practice.

This unit applies to community services and health workers with the relevant authority in their state or territory to administer medication and monitor them as per the delegation from a relevant health professional.

Ongoing requirements to demonstrate competency in drug calculations may apply, and users should refer to relevant state/territory regulatory requirements.

FOR DETAILS:

Mode of delivery: online plus
work placement.

Course duration: 3 days
online class, 3 days work
placement.

Safe Manual Handling Practices in Health, Aged Care and Community

Equip health professionals with safe workplace practices including manual handling

Mode of Delivery:

College of Nursing
Education & Training
Australia

CATEGORY PROLELY SPONSORED BY

The Triple M People's Choice Award is the only Golden Crow Award judged by the public.

College of NETA has been awarded on the 25th of June as the Finalist for the Golden Crow Awards in the City of Wagga Wagga. The Golden Crow Awards are Wagga Wagga's premier business awards, hosted by the Wagga Wagga Business Chamber, that has been established 35 years ago. They celebrate excellence, innovation, and entrepreneurship across the local businesses in the community.

Well done to the College of NETA, its team members and ongoing support of students and stakeholders.

OSCE Face to Face in Nepal

After a successful run in the Philippines, we are thrilled to bring the first-ever OSCE face-to-face preparation course to Kathmandu! Nepalese nurses can now train for OSCE in their home country, saving time and resources while gaining top-tier guidance.

With unlimited access to our simulation laboratories in Australia, the Philippines, and Nepal, nurses can prepare with hands-on experience. Plus, Australian nurse educators will be flying in to teach, ensuring world-class training.

This milestone is made possible through our partnership with Jenil Nursing and Education Consultancy, and we can't wait to begin!

Beyond the City Lights: Filipino Nurses in Country NSW

In the charming town of Cootamundra, NSW, a powerful testament to perseverance and excellence is being written by four outstanding registered nurses from the Philippines. Drawing on rich, diverse experiences, Elaine Argallon, Edna Pendatun, Vanessa Mercader, and Mercy Fantonial are making a lasting impact in the nursing profession—embodying the strength, resilience, and heart of the Filipino spirit.

Nestled in the heart of New South Wales, Cootamundra is a picturesque country town that radiates charm and tranquility. Surrounded by rolling hills and golden canola fields, it's a place where nature's beauty meets small-town warmth. Life moves at a relaxed pace here, offering a peaceful retreat from the bustle of the city—yet residents enjoy access to modern conveniences, healthcare services, quality schools, and recreational facilities.

We shine a light on six dynamic Filipino nurses who have found a new home in Cootamundra, NSW. Here, they have thrived as Nursing Support Workers while preparing for their examinations to become Australian Registered Nurses with the College of Nursing Education & Training Australia (College of NETA). The College of NETA has played a vital role in guiding their studies and connecting them with an employer who has supported them throughout their journey.

This dedicated team includes Elaine Argallon, from Davao City, with an impressive 11 years of nursing experience; Edna Pendatun, from Malaybalay City, Bukidnon, with 13 years of dedicated service; Vanessa Mercader, with six years of strong nursing experience, and Mercy Fantonial, with four years—both from Cebu City.

Thriving Filipino Nurses in Country NSW (cont...)

They are joined by two new members: Celeste Businos, originally from Leyte and previously based in Papua New Guinea, bringing over seven years of experience; and Ulysses Pocpoc, from Mandaluyong City, with more than five years in the field.

Vanessa and Edna emphasize the importance of acting without delay, encouraging aspiring nurses to take the leap: “There is no time to delay, so if you have any plans to pursue your nursing career, do it now.” Elaine echoes this sentiment, urging others not to let fear stand in the way of their dreams: “If you’re dreaming of a nursing career in Australia but feeling hesitant, our advice is to take that first step despite the fear. The journey may seem challenging at first, but with persistence and support, we believe it’s totally worth it.”

These Filipino nurses have not only thrived in their new community—they have also brought with them a deep sense of cultural pride and compassion that shines through in their work. Their stories are a testament to the Filipino spirit, defined by strength, dedication, and resilience. More than just healthcare workers, they are role models—inspiring others to take risks, persevere through challenges, and remain hopeful. Their stories remind us that with courage and determination, dreams really can become reality.

featured EDUCATOR

ANU *Subedi-Dangal*

Where are you originally from?
Birtamode, Jhapa ,Nepal

Which university or institution
did you graduate from?
Nepal Medical College,
Kathmandu University, Kathmandu

What is your area
of specialty in nursing?
Medical-Surgical Nursing

Which city in Australia
do you currently live in,
and what do you love most
about it?
Wagga Wagga
Peaceful environment
and feels lot like home
(Nepal)

traveand

What are your favorite aspects of being a nurse educator, and what impact do you hope to make in the field?

As a nurse educator, the best part is shaping future healthcare professionals. I love making complex topics simple, ensuring students understand and apply their knowledge in real-world settings. Helping them build confidence and competence is rewarding.

The impact I want to make: Creating skilled, compassionate nurses who provide safe, effective care. Education isn't just about teaching—it's about empowering others to make a difference.

Can you share a memorable moment from your teaching experience that left a lasting impression on you?

One of the most rewarding moments was meeting a former student as a colleague in the workplace. Seeing them transition from a learner to a confident professional was a proud and fulfilling experience. Knowing that I played a part in their journey made all effort worthwhile.

What is your favorite food,
and do you have any
go-to spots where you enjoy it?

Mo:Mo (Of course being a
typical Nepali)
-I love chatpatey and
panipuri(yumm!!)
And all homemade food.
Go to place would be
street vendors in
Kathmandu for Mo:Mo.
(Believe me, they make
the best sauce)

On your days off, what do
you enjoy doing the most?

I enjoy staying home,
cooking good food and
maybe a stroll around
in the evening.

What do you miss
most in your
home country?

Relaxed lifestyle
and food.

What advice would you
give to nurses aspiring
to be an Australian
Registered Nurse?

- Do not doubt your ability as nurse.
- Trust the process and give your 100%.

Regulatory exams are not there to fail you but to measure your
competencies, so SHOW it!!
