Launching of OSCE Scenarios in Shop

College of NETA in the Philippines

The College of Nursing Education & Training Australia proudly joined two landmark events in Cebu, Philippines this May at the University of San Carlos Research Forum and at the Philippine Nurses Association - Cebu Chapter International Nurses Day, honouring the dedication of nurses all over the world.

COLLEGE OF NETA BRINGS FIRST AID TRAINING TO TUMUT, NSW

The College of Nursing Education & Training Australia (NETA) proudly conducted its HLTAID011 - Provide First Aid course in Tumut, New South Wales, equipping community members with nationally recognised certification as emergency responders.

Participants engaged in a hands-on program that covered CPR for adults, children, and infants, defibrillator use, and incident management. After completing the training, attendees received a certificate, valid for 3 years, ensuring compliance with workplace safety standards and enhancing their ability to respond effectively in emergencies.

This training not only empowered individuals with practical skills but also strengthened Tumut's community resilience, ensuring more residents are prepared to act confidently in critical situations.

Tumut is a picturesque town in the Snowy Valleys region of New South Wales, nestled on the banks of the Tumut River at the foothills of the Snowy Mountains. Known as the "Gateway to the Snowy Mountains Scheme," Tumut combines natural beauty, rich heritage, and a strong sense of community—making it a fitting location for NETA's mission to deliver essential health training.

The HLTAID011 - Provide First Aid course is a nationally accredited program designed to give participants the confidence to manage medical emergencies until professional help arrives.

This course is ideal for individuals, workplaces, and community groups seeking to meet safety requirements and build life-saving confidence.

OSCE Face to Face Overseas

PHILIPPINES CEBU, PHILIPPINES

Last April, the College of NETA proudly delivered an OSCE face-to-face training session in Cebu, Philippines, welcoming Filipino nurses from across the country. The program provided participants with the chance to practice their nursing skills according to Australian standards, preparing them for success in the Objective Structured Clinical Examination (OSCE).

The session was facilitated by Victoria, herself an OSCE passer, who guided participants with practical insights and encouragement drawn from her own experience. Her mentorship ensured that nurses gained not only technical competence but also the confidence to meet the rigorous expectations of Australian registration.

This event underscored the dedication of Filipino nurses to pursue international opportunities and highlighted NETA's commitment to supporting their journey toward becoming Australia-registered professionals. The Philippines continues to stand as one of the world's leading sources of skilled nurses, whose expertise and compassion are valued across the globe.

NEPAL KATHMANDU, NEPAL

The College of NETA, in partnership with Jenil Nursing and Education Consultancy, recently delivered an OSCE face-to-face training session in Kathmandu, Nepal, attended by nurses from across the country. This program provided participants with the opportunity to practice their nursing skills according to Australian standards, equipping them with the confidence and competence needed to succeed in the OSCE.

The session was mentored by Kritiy, an OSCE passer herself through NETA.

College of NETA continuous to support committed nurses to pursue their journey toward becoming Australia-registered professionals.

College of NETA Supports 5th USC Research Forum

 University of San Carlos
Cebu City, Philippines

On May 14, the 5th Research Forum of the University of San Carlos – Department of Nursing was held at Michael Richartz Hall, bringing together nurse participants from different schools and institutions.

The College of NETA proudly participated as an event sponsor, with the NETA Philippines team – Karla and Therese – in attendance to support and engage with the nursing community. The forum became a dynamic platform for students to present their research studies, share valuable insights, and engage in meaningful discussions that continue to shape the future of nursing and healthcare.

The College of NETA remains committed to supporting nursing education and professional development.

CELEBRATING OUR RECENT GRADUATES

We are proud to recognize the latest graduates of HLT33115 – Certificate III in Health Services Assistance, who have successfully completed their training and are now equipped with essential skills to support healthcare teams.
